

10:45, Knots, 15 mins.,

Rope and dental floss (or waxed string) needed for demonstrating how to whip the end of a rope with the attendees. 1/2 hemp rope is cut into 3' foot lengths, one for each attendee. I have some sissal rope and we can discuss further any purchase that needs to be made.

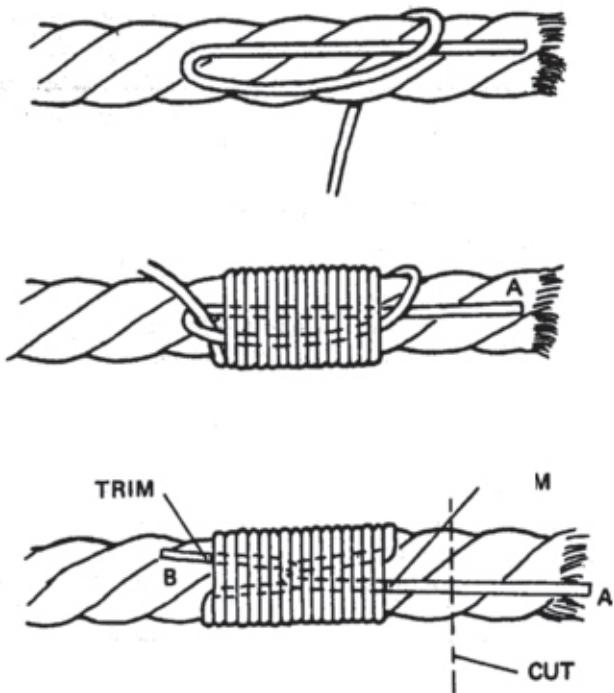

Figure 12. Ordinary whipping

Refere to BSHB pp 34-37 and 138-150 to demonstrate knots to be shared with attendees.
